Feel Green is Decorum's sustainability label. Growers that deliver Feel Green meet high sustainability requirements. They are MPS-SQ and Global or MPS-GAP. Every Feel Green product is Product Proof, so you know that no prohibited substances have been used. Not only the product is sustainable; the packaging and the label are made of biodegradable and renewable materials. All Feel Green products are supplied in a cardboard tray or a tray made from recycled material. The final ingredients for Feel Green are the unprecedented attention and love of the grower for the product. In this way we ensure a green living environment full of sustainable plants and flowers. That is 1+1=3.

1+1=3

- Sustainably cultivated
- Sustainable packaging
- Sustainably enjoyed
